

# How to Handle Bomb Threats

**Bomb threats are usually received by telephone, but may also be received by note, letter or e-mail. All bomb threats should be taken seriously and handled as though an explosive were in the building.**

Your place of employment should have a plan in place instructing what to do when a bomb threat is received.

If you receive a bomb threat, get as much information from the caller as possible.

Take good notes when talking to the person on the telephone. Keep the caller on the line, and write down everything that is said.

Be aware of background noise, special voice characteristics, music, machinery, etc.

If you are at work, have a coworker call 9-1-1 and building security immediately. Plan how you are going to alert your coworker.

If you receive a bomb threat, do not touch any suspicious packages.

Clear the area around the suspicious package, and notify police immediately.

While evacuating a building, avoid standing in front of windows or other potentially hazardous areas.

Do not restrict sidewalks or other areas used by emergency officials.

If you find a bomb, don't touch it or attempt to move it. Call for help and evacuate the area immediately.
